## Trinity Defeats Tech

Score is 48 to 0

FOUR OF OUR MEN OUT OF THE GAME  
—SHERWOOD INJURED—TRINITY HAS  
POWERFUL BACK FIELD

With four of our regular men out of the game, our football team suffered defeat at the hands of the strong Trinity team to the tune of 48 to 0. The opponent's team was the strongest they have had in years so the defeat was really not so bad as the score would seem to indicate, considering the crippled condition of our team. Our four cripples were Captain Barnes, Higbee, Stallneckt and Lewis. The game was featured by fumbles, Trinity offending not less than ten times and Worcester five. One of the fumbles by Trinity occurred near our goal line, and the ball bounded over the line, where Moore dropped on the ball, thus making a touchdown. Stone showed up best for Tech, making several neat tackles, one of which downed the redoubtable Hudson on Trinity's 25-yd. line. Trinity's backfield was unusually strong, Hudson the captain being the star.

Kinney kicked off for Trinity, Camp receiving the ball on the 15-yd. line. The kick off sent the ball so high in the air that the Trinity men got down under the ball and nailed Camp before he could go five yards. On the next play there was a fumble in the backfield, and Smith dropped on the ball on our 10-yd. line. Hudson then took the ball for a touchdown around right end. Kinney failed to kick the goal, making the score 6 to 0. Again Kinney kicked off and soon after Tech fumbled again. Moore recovered the ball but was nailed by Stone on our 11-yd. line. Soon after Trinity fumbled and the ball was again in our possession. The forward pass was then worked for a 10-yd. gain. Four downs later Coyne was forced to punt. Trinity then carried the ball by successive line plunges a distance of about 45 yards when Tech was penalized 5 yards for offside play. The ball hung around our goal then for the rest of the quarter. It was in the early part of the second quarter that the next touchdown occurred after a lucky fumble for Trinity which allowed the ball to roll over the line. Kinney kicked the goal, making the score 13 to 0. Later in the quarter, Sherwood wrenched his back and was forced to leave the game, Jones taking his place. Just before the end of the first half, Coffee made a touchdown from our 15-yd. line and Kinney kicked the goal. The half ended then with the score standing at 20 to 0.

The third period began with Wessells in place of Wooley, and Elden in place of Smith. Camp kicked off to Wessells, who was tackled neatly by Stone on the 40-yd. line.

Successive line plunges on Trinity's part, interfered with by an interchange

of the ball due to fumbles, enabled Hudson to make another touchdown. Again Kinney kicked goal, which brought the score up to 27-0.

The next touchdown was made by Ives. After the touchdown, the referee brought the ball out without thinking and placed it on the ground, thus putting the ball in play again. Kinney immediately picked up the ball and drop kicked the goal. Here the quarter ended with the score at the 34 to 0 stage.

Trinity started the fourth quarter with her original team on the field, and for Tech Frary replaced Tulloch. Kinney kicked off so strongly that the ball rolled behind our goal line. The ball was brought into play on the 20-yd. line. After a few minutes of play, Hudson intercepted an attempted forward pass, and made a touchdown. Kinney was there again for Trinity and kicked goal. Score 41-0. Later Coffee intercepted another one of our forward passes in the center of the field and made another touchdown, which made the score after the goal was kicked, 48 to 0. At this stage of the game Tinker, Steele, Jencks and Elder replaced Banan, Coyne, Camp and Cole respectively. Soon after the game ended with the ball on our 35-yd. line.

The summary:—

W. P. I.	Trinity
Stone, L. e.	Cole, Elder, r. e.
Wiederman, L. t.	Wooley, Wessells, r. t.
Banan, Tinker, l. g.	Lambert, r. g.
Becker, c.	Kinney, c.
Shumway, r. g.	Castator, l. g.
Hosmer, r. t.	Howell, l. t.
Sherwood, Jones, r. e.	Smith, Elder, l. e.
Kelley, q. b. (acting capt.)	Ives, q. b.
Coyne, Steele, r. h.	Coffee, Craig, l. h.
Tulloch, Frary, l. h.	Moore, Meyer, r. h.
Camp, Jencks, f. b.	Hudson, f. b. (Capt.)

Score: 48-0.

Touchdowns, Hudson, 3; Coffee, 2; Moore, 1; and Ives, 1.

Goals from touchdown, Kinney, 6.

Referee, Dr. Herr of Dartmouth.

Umpire, Saunders of Columbia.

Head linesman, Moore of Trinity.

Timekeeper, Ruddell of W. P. I.

Time, 4 ten-minute periods.

### FRESHMAN CLASS MEETING

A meeting of the Freshman Class was held last Friday after English lecture. President Stenberg, who was elected at the first meeting of the class, presided. The meeting was called for the purpose of electing the remaining class officers. The result was as follows: Vice-president, Albert Willard from Springfield; Secretary, Harold R. Parmelee from Springfield; Treasurer, Ralph S. Ward from Athol; Sargeant-at-arms, Ernest B. Chan, from Shanghai, China; Athletic Manager, Alfred W. Jordan from Plymouth. Mr. Chan, Sargeant-at-arms, was unanimously elected.

### ATHLETIC ASSOCIATION MEETING

On Friday afternoon of this week at 5 P. M. there will be held in the Electrical Engineering lecture room, the annual meeting of the W. P. I. Athletic Association. The purpose of the meeting is to elect officers of the Association for the ensuing year, as well as the class directors. All undergraduates are urged to attend.

### NOMINATIONS FOR ATHLETIC ASSOCIATION OFFICERS

FOR PRESIDENT:  
R. L. Keith

FOR VICE-PRESIDENT:  
E. T. Warren  
M. L. Hazelton  
R. H. Russell

FOR SECRETARY:  
W. E. Shumway  
G. H. Upton

FOR TREASURER:  
W. G. Very  
M. G. Steele  
R. H. Crippen

FOR SENIOR DIRECTOR:  
E. W. Reed  
C. F. Fritch  
H. L. Kane

FOR JUNIOR DIRECTOR:  
W. S. Jewell  
H. C. Barnes  
W. H. Pike  
R. A. Waite  
G. S. Atkinson

FOR SOPHOMORE DIRECTOR:  
C. A. Ruddell  
C. A. Stone  
H. H. Camp  
H. A. Cleveland  
W. M. Putnam

FOR FRESHMAN DIRECTOR:  
F. S. Stallknecht  
A. W. Jordan  
K. Hugo  
D. M. Otis  
R. C. Hanckel

FOR CHEER LEADER:  
R. H. Pinney  
W. S. Jewell

### ATHLETIC EDITOR'S COLUMN

Wednesday afternoon Tech's football squad journeyed to Gaskill Field for practise and there lined up against the strong Worcester Academy Eleven. There was no attempt made to score, as the coaches kept the ball in the center of the field, but a hard scrimmage was engaged in and a good workout of all the men was thus made possible.

### WHAT ABOUT A "FIRST AID" COURSE AT TECH?

A number of requests have come, asking the Y. M. C. A. to organize a First Aid to the Injured Course for the benefit of Tech men who are interested. The need for some such instruction, those interested say, is greater among technical men than any other college group because of the large number of accidents in the industries to which the men go after graduation.

Are you interested in such a course? Speak to some member of the Y. M. C. A. Cabinet or to Secretary Shedd about it. A course could be given in the second half of the year if there was sufficient demand for it.

### FOOTBALL PROSPECTS

A REVIEW OF THE PLAYERS BASED ON THE FIRST TWO GAMES OF THE SEASON  
With the football season actually started, we are able to get a better line on the men who are out for the team. The first two games have served to show up weaknesses which Coach Donnelly is now trying to remedy, and by the time we play our time-honored rivals, Holy Cross, the team will be in shape to put up a finished fight, as well as a fight to the finish.

Of the team which played against Springfield, Shumway furnished the biggest surprise of the game. With his experience limited to that gained in practice, the way he broke up plays through the right side of the line was little short of marvelous. The remainder of the line, however, was somewhat of a failure, in spite of the fact that Stallneckt, Wiederman, and Banan occasionally broke  
(Continued on page 4)

### CALENDAR

TUESDAY, 1.00 P. M.

Meeting of Senior, Junior, and Sophomore Chemists in Freshman Lecture room for election of officers of Chem. Club for ensuing year.

WEDNESDAY, 6.45-7.45 P. M.

Cabinet meeting of Y. M. C. A. Association.

THURSDAY, 5.00 P. M.

First Cross-country run over Newton Sq. course.

FRIDAY, 5.00 P. M.

A. A. Election of Officers in E. E. Lecture Room.

SUNDAY, 3.30 P. M.

At the Association Hall, Y. M. C. A., 10 Elm St. An interesting meeting. Subject: "What is the Cure for Social Impurity? Do we Want it Cured?" Motion Pictures and open discussion.

TUESDAY, 5.00 P. M.

Meeting of Editorial Board of TECH NEWS in TECH NEWS Building.

EVERY DAY.

Football Practice and Athletic Dues.

### NOTICE

Meeting of Board of Editors and Editorial Workers tonight at five o'clock, in the Tech News Building.

### Editorial

☐ Certainly the management of the football team this year is what it should be. This was best shown in the selection of our new coach, who has been putting more energy into the team than any coach has in some time past, and who this last week arranged matters so that our team was given practice with the fast team representing Worcester Academy. May the good work keep up.

☐ How about it Seniors? Isn't it time that something was done concerning the permanent organization of the Tech Senate?

☐ We are fortunate in having a President who can give such an interesting talk as was given last Friday at the joint meeting of the engineering societies.

☐ We wish to remind the interested ones again that this is the month when the vacant places on the editorial staff are to be filled.

☐ A week ago we were given to understand from a supposedly reliable source that a Training Table was to be started this last week. However, since then matters have not come out as well as expected and so the movement has been abandoned for the present. We certainly hope though that things can be arranged in the near future so that a successful Training Table can be conducted. In the meantime let the players observe training rules just so far as possible without any prompting on the part of the coach.

### TECHNICALITIES

Mr. Arthur L. Cook, W. P. I., 1901, has recently been appointed to the head of the Department of Applied Electricity at Pratt Institute. After graduating at Worcester Polytechnic Institute, Mr. Cook remained to pursue post graduate work and received the E. E. degree. During his post graduate course Mr. Cook also acted as graduate assistant in the Electrical Department. For several years, Mr. Cook has been Electrical Power engineer with the Westinghouse, Church Kerr & Co. Mr. S. S. Edmunds, director of the School of Science and Technology at Pratt Institute, is also a graduate of the Worcester Polytechnic Institute.

Prof. Harold B. Smith, Director of the Electrical Department of the Worcester Polytechnic Institute, has returned to take up the work of the department after a leave of absence of two years. During his leave, Professor Smith visited many institutions of learning in the principal countries of Europe, giving particular attention to the Technical Schools and to the departments of engineering in the Universities. The first year of the leave of absence was spent mainly in traveling, during which time Professor Smith visited many cities in England, northern part of Africa, India, China, Japan, etc. The second year was spent in Europe, and much of the time was devoted to study of Educational Institutions.

Mr. William C. Greenough, W. P. I., 1910, and Miss Anna Florence Carhart of Wilkensburg, Pa., were married at the bride's home on June 26. Mr. Ray H. Taber, W. P. I., '09, was best man. Mr. Edward A. Hauff, W. P. I., '11, and Mr. F. Shenton Thomas of Wilkensburg were ushers. Mr. and Mrs. Greenough are now living in Worcester.

The laboratories of the Mechanical Engineering Department are being equipped with a 110-volt lighting system in order that tungsten lamps may be substituted for the former carbon lamps which were run on a 220-volt system. The change involves the installation of a G. E. 10 K. W. balance coil and the rewiring of some of the rooms. The Institute expects to change the lighting system of all the buildings to tungsten lamps as speedily as possible. The change is particularly noticeable in the Mechanical Drawing room as the old type of lamps and shades have been replaced by new ones which are close to the ceiling.

### TECHNICALITIES

A. H. Gridley, '13 visited Tech last week. Mr. Gridley is engaged in business in Milton, N. H.

Wallace Tenney Montague, '12, was married to Miss May Robbins in Worcester last Saturday at the First Church of Christ. E. W. Reed, '14, was best man.

Mr. Power has been compelled to request the Junior Mineralogy Class not to "use the white crystal surfaces for Blackboards." Some of the products including dice, etc., have been remarkable.

W. H. Morse, '95, who had been out of health for some time, recently returned in excellent condition from a vacation spent in Europe and the Adirondacks.

### SPECIAL MEETING OF TECH NEWS ASSOCIATION

At the special meeting of the Tech News Association held last Tuesday, the following men were voted in as members of the Association; W. S. Jewell, '15; P. F. Murray, '16; H. E. Whiting, '16; A. B. Clark, '15; L. C. Jones, '16; E. L. Barker, '16; and C. S. Darling, '17.

### JUNIOR MECHANIC ENTERS ANNAPOLIS

One of the last official acts of the late Congressman Wm. H. Wilder of Gardner was the appointment of G. C. Cummings (Ex '15), of West Boylston, to the U. S. Naval Academy at Annapolis, to fill the vacancy from the Third Massachusetts district caused by the failure of all three regular nominees to pass the government's entrance examination. Cummings was named first alternate from the Worcester district by Congressman Washburn in 1910 on the basis of a competitive examination, but the principal also passed the entrance examinations and received the appointment. Cummings was not required to take another mental examination this summer but was granted a special physical examination by the Navy Department, August 12th and was sworn in as midshipman the following day (only six days before he would have passed the age limit).

He reports that the work previous to the opening of the academic year was very unlike Mechanic Summer Practice and included seamanship, swimming and rowing instruction, and long hours of practice on the rifle range under a broiling hot sun.

### FACULTY RECEPTION

GIVEN BY DR. and MRS. CONANT  
On Friday, Sept. 26th, the home of Dr. and Mrs. Conant, was the scene of a Faculty reception in honor of President and Mrs. Hollis. More than one hundred invitations had been sent out and every one invited was present with the exception of a few who were detained on account of illness. Professor Coombs did honors as usher. The house was decorated by Lange, the florist, and the catering was attended to by Rebboli.

The occasion was a most enjoyable one and enabled the members of the Faculty and the instructors, and their wives, to become better acquainted with President and Mrs. Hollis.

### FOOTBALL NOTES

Tech's football schedule has been changed through the cancellation by the Norwich management of its game because of the death of half-back Vernon Belyea who was injured in the Holy Cross game. It is hoped that the management can find some substitute for Norwich as this was one of our two home games.

The Harvard football team which was scheduled to play Norwich University on October 25 is in a similar plight and is looking for a substitute. It is interesting to note that Boston College whom Tech plays Nov. 1 is being seriously considered by the management of the crimson eleven.

### SOPHOMORE ELECTIONS

At the Sophomore Class meeting held last Wednesday the following officers were elected:—President, C. H. Burgess; Vice-President, C. A. Stone; Secretary, H. G. Saunders; Treasurer, L. C. Jones.

A sample of an adobe brick was received this summer from W. R. Wheaton, '04. The sample is 4" x 18" x 14" and is from the San Miguel Mission in southern California which was built in 1797.

## A CALL TO MEN WHO WANT TO DO THINGS WORTH WHILE

Do you know how to organize your time? Or, are you one of those men who make no plans for the use of their time and consequently always think they are busy? Have you ever noticed that the really busy man has a program for his spare time that is as carefully arranged as his class room schedule? Also have you noticed that the really busy man never spends much time telling you how busy he is. He is too busy to do that.

The calls of the world come to the really busy man. He is the man who can do worth while things.

You can be a really busy man. Study the demands upon your time, then organize your work so that you get a maximum of profit on a minimum expenditure of time and energy. Fill in the chinks in your present "hit-or-miss" use of time and you will be surprised to find the amount of leisure time you have left. Yes, even on Tech Hill!

When you have done that, then you will want to find some worth while ways of using part of that time. That is an inevitable result of carefully planning your time.

To You, Mr. Really Busy Tech Man the Tech Y. M. C. A. offers many opportunities for worth while service.

Why not give a couple of hours a week to building up the boy life of the community that is doing so much for you? It's bully good fun!

Here are some of the calls that come to You. We need in connection with boys' clubs and churches the following volunteer leaders:

- 1 Leader for an Electrical Club.
- 1 " " a Stamp Collectors' Club.
- 1 " " a Wireless Club.
- 6 Leaders for Boy Scouts.
- 6 " " Younger Boys' Bible Classes.
- 2 Leaders for Employed Boys' Clubs.
- 2 " " High School Clubs.

Calls are coming in every day. Will you help out? Give your name to Secretary Shedd.

## QUERIES AND ANSWERS

ATHLETIC EDITOR OF TECH NEWS,  
Worcester Polytechnic Institute,  
Worcester, Mass.

DEAR SIR:

Can you tell me if Tech has a varsity cross-country team and are W's awarded the members?

P. D. Q., '17

A.—Tech surely has a varsity cross-country team which runs annually in the N. E. I. A. A. If a man places among the first seven in this run he receives his W.

Q.—Who is eligible for the Freshman-Sophomore Football Game?  
F. S. W., '17.

A.—Any man who has been out for the varsity for four weeks steadily.

Any questions about Tech or Intercollegiate Athletics will be promptly answered if addressed to Athletic Editor and dropped in TECH NEWS BOX.

(Continued from page 1)

through, and unless great improvement is shown it can safely be predicted that new faces will appear on the front line when Tech plays Norwich next Saturday. Both Tinker, of last year's eleven, and Brown, a heavyweight freshman, are showing up well for a forward position.

Stone played a brilliant game at left end, while on the other end of the line Lewis, a star of two years ago, put up a good game until he was injured. Kelley showed head work and grit at quarter, while Capt. Howard Barnes and Higbee, the two speed halves, were going good until injuries forced them to retire. While Camp got away with some good kicks, he appeared too slow for the regular full-back berth, and will have to get some speed into his work in order to hold it down. Coyne played a gritty game at half, and is pretty sure of landing one of those positions, at least until Barnes and Higbee return. Tullock is another contender for a half-back position, while Steele has plenty of chance to make good.

The biggest fault of the entire team in the first game was poor tackling, but a week at the dummy and in scrimmages remedied this weakness somewhat so that it was not so prominent in the Trinity game last Saturday. The forward pass was worked for several long gains, and this play should aid Tech to several touchdowns this fall. Altogether the prospects are not so dark as they have been many times in the past few years.

## THE FRANKLIN SQ. WEEK, COMMENCING MONDAY, OCT. 6

Will have Thurston, surnamed the great, a magician and wonder worker, legitimate descendant of Hermann and the masterly Kellar. Thurston is one of the few public entertainers who really does not need introduction, for so deep is the impression of inexplicable mystery created by this young man's performance that the recollection of his presentations remains perennially with his spectators.

This year, true to his indefatigable investigations in the realms of the occult, he offers many new novelties, no more to be explained by any of the ordinary processes of reasoning than any of the many that have gone before.

Among the many new features for this season are "Balaam and his Ass," the great donkey illusion; "The Daylight Ghosts," a mystical phantom playlet of spookland; "The Pekin Palanquin," a Chinese mystery of oriental splendor; "The Siamese Cabinet," a marvelous production of living people; "The Bangkok Bungalow," a Lama's dream of astral power; "The Shadow People," a materialization of the after world, and "The Chair of Asia," a reclining "Juno" defying human endurance. Novelty is the spice of life and for this reason Mr. Thurston has imported the Monte Myro Troupe of Italian pantomimists for an added feature. —Adv.

This week Monday, Tuesday and Wednesday with daily matinees "Quo Vadis" the \$150,000 photoplay will return for three days. This wonderful series of pictures were shown here in August of this year to over 15,000 people who all said it was a wonderful presentation, instructive as well as entertaining.

For the last three days of this week Waldron's wellknown Trocadero will be the attraction. This is one of the Columbia Amusement Companies pet attractions and should prove an interesting burlesque. —Adv.

## NEW ATHLETIC FIELD SOON TO BE A REALITY

The accompanying cut is another illustration of the work on our new athletic field, a subject of never-ending interest to Tech undergraduates and alumni. To think that we are soon to have one of the best athletic fields in the country, with a wonderful system of drains which will keep the track in condition under the most adverse weather conditions, is almost beyond the hope of those who have finished their four years of hard study and labor in Boynton Hall and the adjoining buildings. Yet to those of us who are

still there, who watch the work day by day as it nears completion, the realization comes that it is only a matter of time when the dreams of a few years ago will come true. What with the addition of an up-to-date gymnasium in charge of a competent instructor, a common dining-hall, and 14 new tennis courts, our equipment will soon be far ahead of many institutions much older than Tech. The picture shows the steam shovel at work, and as one watches it one is reminded of some ravenous monster, a never-to-be-satisfied being until its food, the remaining portion of the hill is entirely consumed.

THE STEAM SHOVEL IN ACTION

### Y. M. C. A. NOTES

The first Mixer comes October 31st. Watch for full announcement of course in next week's News. You will have to get in your application early this year if you are to get a seat. Price, as last year, \$1.00 for course of three entertainments. Special ticket admitting gentleman and lady to entire course, \$1.75. You save 25 cents if you take "her." Speak to "her" before the other fellow does.

Last year 169 men enrolled in Bible Study groups in rooming and fraternity houses. This year we are to have 200. Enrollment campaign starts soon. We are going to follow a great series of studies on the "Manhood of the Master" outlined by Harry Emerson Fosdick. Prepare to get into the game.

We need volunteers for foreign educational work. Will you give one noon hour or one evening a week to the work of teaching English to foreigners. This work is done in foreign boarding houses, clubs, and factories.

At the Cabinet Meeting held Wednesday evening in the Y. M. C. A. Room, the plans of the Social and Meetings Committee were reported by the chairmen, Robert H. Russell '15 and Thos. W. Farnsworth, '15. It was voted to make Douglas F. Miner, chairman of the Calendar Committee a member of the Cabinet.

Attention was called to the fact that Nov. 9-15 has been set aside as the world-wide week of prayer for men.

The Community Service Conference of the student associations in Massachusetts and Rhode Island will be held in Boston City Club, Friday, October 17. The Cabinet voted to send one man as delegate to this conference.

### SENIOR ELECTIONS

The Senior Class held their meeting on Monday, Sept. 29th, at which the following officers were elected:—

President, C. F. Fritch, of Attleboro, Mass.; Vice-President, E. C. Bartlett,

of Worcester; Secretary, H. L. Tilton of Fitchburg, Mass.; Treasurer, W. C. Blanchard of Woonsocket, R. I.; Sergeant-at-Arms, S. Z. Yang, of Tientsin, China.

Following the election of officers, H. L. Tilton, editor-in-chief of the "Aftermath" outlined the plans for collection of "Aftermath" dues.

### JUNIOR ELECTIONS

Last week Monday the Junior Class elected the following officers for the first semester. President, Howard C. Barnes; Vice-President, William R. Adams; Secretary, Joseph E. Roy; Treasurer, Robert H. Russell; and Sergeant-at-Arms, Frederic R. Cox. Plans are being made for a Half-Way-Through Banquet in the near future.

### A COMMUNICATION

To the Editor of the Tech News:—

There are, no doubt, many instances to be found on the Hill where reform is needed and a simple remedy would fit the case.

We notice these things, however, only when they are brought directly to our attention and it was in this way that one has come to my attention within the past few weeks.

A large number, in fact, the majority of the candidates for the football team have been provided with lockers in Boynton Hall and meet there every night to dress. When the work is over they again meet in the main locker room and then forced either to go out the back door and through the bulkhead or up through the main corridor and down through the lunch room, or, in the event of that door being locked, around a dark passage behind the lunch room, in order to reach the room where such baths as are provided can be obtained.

Eliminating the embarrassment of members of the team in various stages of dress meeting the stenographers in the corridor,

## JOINT MEETING OF ENGI- NEERING SOCIETIES

### President Hollis Speaks

Last Friday there was held in the  
Electrical Engineering Building a  
joint meeting of the three engineer-  
ing societies, under the auspices of  
the Mechanical Engineering Society.

The president of the Mechanical  
Society introduced President Hollis,  
who gave a very interesting talk on  
Screw Propellers. President Hollis  
has had a wide experience in the U.S.  
Navy and was able to speak almost  
entirely from personal experience,  
all of which added to the attractive-  
ness of the lecture.

## ELECTION OF ASSISTANT TRACK MANAGER

At the recent meeting of the  
Board of Directors of the A. A.,  
W. M. Putnam of Worcester was  
elected Assistant Track Manager.

## THE QUESTION SOLVED

Tech is to be complimented on the way  
the money is filling the depleted coffers  
of the Athletic Association due both to the  
organization and energy of the special  
committee of collectors and to the awaken-  
ing of Tech spirit as manifested by the  
manner in which the student body is  
meeting its obligations to the Institute.

But, nevertheless, there are a few men  
who haven't caught the spirit and who  
ask, "Why should I pay four dollars when  
I am not out for athletics and won't get the  
benefit from it?" Everyone at Tech is  
welcome to participate in athletics and it  
is his own fault if he doesn't take advan-  
tage of his opportunities, but grant that  
a man is physically incapacitated for such  
enjoyment.

Why does one come to Tech for learning  
rather than getting it through a corre-  
spondence school or in practical work for  
which he is compensated? It is because  
of the desire of each man to become a part  
of a real school and to learn the greater  
lessons of life through association with  
men of ability and experience. The only  
way that Tech will become a real school,  
affording opportunity for planning and  
organizing work and managing men, is  
the fostering of the athletic and social  
side of Tech life. So let every man feel  
it his duty to help on the good cause of  
athletics, which has found favor at last  
with the Faculty, and needs only good  
financial backing.

Last summer a few loyal Techites sub-  
scribed money which with the aid of the  
Chicago Alumni Association was able to  
send two members of the varsity track  
team to the A. A. U. Championships at  
Chicago. Here Tech came into promi-  
nence through red and gray jerseyed run-  
ners setting the pace for the mile and two  
mile college championships and finally  
landing first and second respectively in  
the two distances. Now why hasn't Tech  
enough money to send men like this to  
all the big meets and put Worcester Poly-  
tech on the Athletic map with the big  
Universities? She has the men! Don't  
let this question be asked again!

## A COMMUNICATION (Continued from page 5)

the fact of its inconvenience should cause  
the men to try to change the state of  
affairs.

The wall which separates the two rooms  
is not one of the main walls of the building  
and it hardly seems that that could be  
offered as an excuse for not making the  
change. There are two places which  
from a casual survey seem good positions  
for a door through, one being at the foot  
of the stairs leading to the locker room  
and the other through the wall in the lav-  
atory.

The argument may be offered that such  
a change could not be made for the sake  
of the football team alone, but it is very  
evident that this would not be for their  
use alone but for every athletic team which  
might use the locker rooms.

It might also seem that the coming  
gym would eliminate the need of this but  
the gym is still so far away that very few  
now in school will ever use it. When the  
gym does appear the door will still be of  
great service for there are large numbers  
of students who would use it every day,  
now and after the gymnasium appears,  
in going to and from the lunchroom. It  
is hoped that some action can be taken on  
this matter.

## Worcester Polytechnic Institute

Worcester, Massachusetts

IRA N. HOLLIS, LL. D., President.

### A School of Engineering

providing four-year courses of instruction in
